

The PCORnet Story

Our nation's clinical research system needs improvement.

It doesn't answer all the questions that matter most to people,

is too expensive,

and too slow.

PCORI created PCORnet to help us improve it.

pcornet[®]

The National Patient-Centered Clinical Research Network

PCORnet is a large, highly representative patient-centered clinical research network.

PCORnet enables more efficient, trustworthy clinical research to help people:

Make **better-informed health decisions**,

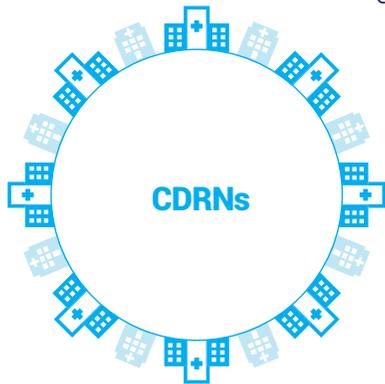

Achieve significant **cost savings**,

and receive **faster clinical insights**

PCORnet's research community unites people, clinicians, and health systems with patient data from multiple sources: electronic health records, insurance claims data, data reported directly by people, and other data.

Clinical Data Research Networks

CDRNs originate in healthcare systems, such as hospitals, health plans, or practice-based networks

Patient-Powered Research Networks

PPRNs are operated and governed by groups of patients and their partners

PCORnet

a national infrastructure for people-centered clinical research

PCORnet represents:

~128 Million

patients who have had a medical encounter in the past 5 years

**some individuals may have visited more than one Network Partner and would be counted more than once*

(as of July 31, 2017)

underpinned by a Common Data Model,

Ask a question to hundreds of institutions and get back results you can trust.

to advance clinical research using PCORnet.

Answer pre-research questions faster.

Collaborate with our network partners.

Benefit from PCORnet study designation.

Think of all the different ways researchers can leverage PCORnet.

pre-research

observational studies

interventional studies

About PCORnet

PCORnet, the National Patient-Centered Clinical Research Network, is an innovative initiative of the Patient-Centered Outcomes Research Institute (PCORI). The goal of PCORnet is to improve the nation's capacity to conduct clinical research by creating a large, highly representative network that directly involves patients in the development and execution of research. More information is available at www.pcornet.org.

About PCORI

The Patient-Centered Outcomes Research Institute (PCORI) is an independent, nonprofit organization authorized by Congress in 2010. Its mission is to fund research that will provide patients, their caregivers, and clinicians with the evidence-based information needed to make better-informed healthcare decisions. PCORI is committed to continually seeking input from a broad range of stakeholders to guide its work. More information is available at www.pcori.org.
