

PCORnet[®], The National Patient-Centered Clinical **Research Network**

PCORnet[®] is intended to improve the nation's capacity to efficiently conduct patient-centered health research, particularly comparative clinical effectiveness research (CER), by providing a large, highly representative network of health data, research expertise, and patient insights. PCORnet has been developed with funding from the Patient-Centered Outcomes Research Institute[®] (PCORI[®]).

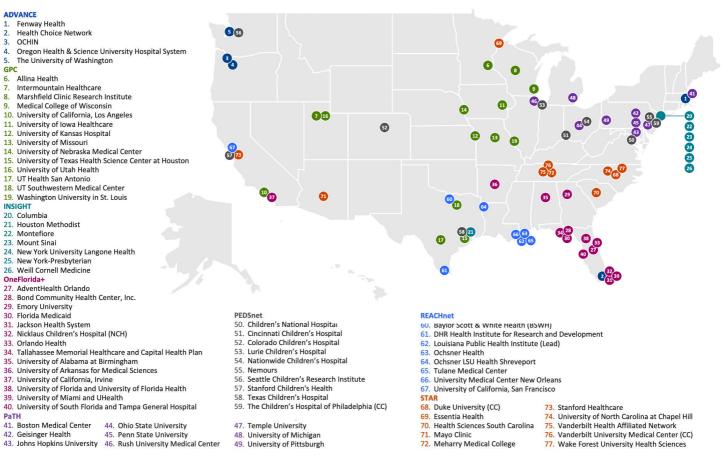

Your Research Need:

- Connections with IRB-maintaining sites for your funded study
- Preliminary data to help design proposals or assess study feasibility
- Partners to co-design research
- **Perspectives** from people with lived expertise

The PCORnet Solution:

- Clinical Research Networks that can participate as clinical sites in randomized research trials
- Preexisting standardized, research-ready data from everyday healthcare encounters with more than 30 million people across the U.S. each year
- Access to premier research experts across the country to assist with studies
- Insights from actively engaged patients, caregivers, and advocates

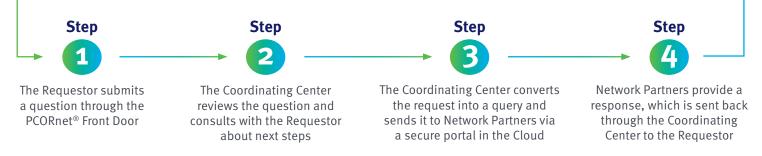

NETWORK OF NETWORKS

A DECADE OF PROVEN RESULTS

	Study Title	Study Question	Result
Co	ADAPTABLE STUDY	Which dose of aspirin, 81 mg or 325 mg, is best to lower the risk of heart attack or stroke?	15,000+ patients from 40 sites over 38 months Named by the <u>Clinical Research Forum</u> as a Top 10 Clinical Research Achievement for 2022 Results were published in the May 2021 <u>New England</u> Journal of Medicine
E	PREVENTABLE STUDY	Can taking a commonly used heart medication lower the risk for dementia in patients aged 75+?	Largest trial to date in people aged 75+ 20,000+ individuals enrolled in study Results are expected in 2026
	COVID-19 RESEARCH	Can PCORnet be used for real-time reporting and surveillance of COVID-19 patterns across the country?	Multiple studies resulted in real-world evidence on vaccines, medications, diagnostics, healthcare delivery, and health disparities Results were published in CDC's <u>Morbidity & Mortality</u> <u>Weekly Report</u> and <u>JAMA Network Open</u> , among others

HARNESSING REAL-WORLD DATA WITH A SIMPLE, SECURE PROCESS

Requestor queries are sent to the data—and answers, not data, are sent back to Requestors.

PCORnet is open to collaboration requests from researchers, patient groups, industry, agencies and others. Are you ready to find out how PCORnet can support your next research effort? Contact the **PCORnet[®] Front Door to start the conversation.**

PCORnet[®] is a national resource, funded by PCORI, where high quality health data, patient partnership, and research expertise deliver fast, trustworthy answers that advance health outcomes. The Network supports both observational and interventional research.
