

Lead the Future of Patient-Centered Research with a PCORnet® Study

Achieving PCORnet® Study designation represents more than access to PCORnet resources — it demonstrates your commitment to deep, intentional collaboration between investigators and patients. As a PCORnet® Study, your research drives the future of patient-centered innovation while ensuring sustainability and practical application.

BENEFITS INCLUDE:

PCORnet Branding

Use the PCORnet name and logo to enhance credibility and broaden your reach.

Support

Enjoy expert support for your study, including lessons learned and tips to help troubleshoot any challenges you might encounter.

Shared Learning

Learn from other PCORnet® Studies and get inspired by new pragmatic research designs and innovative approaches to patient-centricity.

PCORnet® Studies are funded projects that:

- Include two or more PCORnet® Clinical Research Networks.
- Ensure participants and patients are engaged throughout the project lifecycle.
- Commit to broad dissemination of findings to participants.
- Join other PCORnet® Study teams in sharing brief monthly updates on study progress, performance metrics, and best practices.
- Leverage the PCORnet® Common Data Model, as appropriate.

Visit the PCORnet® Front Door at pcornet.org/frontdoor to apply to become a PCORnet® Study.

“PCORnet® Studies are designed specifically in service to the patient, from engagement in the design and conduct to dissemination of results. It is one way we help ensure research that matters to patients continues to progress—and, at the end of the day, that’s what PCORnet is all about.”

Russell Rothman

Principal Investigator at STAR,
a PCORnet® Clinical Research
Network
