

[STUDY TITLE]

[DATE] Study Review Presentation

Request Overview

INSTRUCTIONS FOR RESEARCHERS

Use this slide to provide a high-level overview/intro for your study. Please include the following:

- Research question/brief overview*
- PI/s and Co-I/s and institutions with which you are collaborating (or interested in collaborating)*
- [CRN NAME] role – what exactly is the request from [CRN NAME]? Examples: data provider, assist with connection to potential PIs at other sites for collaboration, provide a Letter of Support for a grant submission, etc.*
- Current funding/submission status (e.g., post-award vs. pre-award)*

Study Background

INSTRUCTIONS FOR RESEARCHERS

Use this slide to provide any additional detail on your study that may be relevant. This may include:

- Specifics of methodology (recommended to include)*
 - Describe the population of interest*
 - Describe the variables of interest*
- Previous work this study is building on*
- How your study will address gaps in existing literature*

Study Aims

RESEARCHER INSTRUCTIONS:

Please add proposed study aims and highlight which aim/s [CRN NAME] data will support.

For aims utilizing [CRN NAME] data, please include how you plan to use [CRN NAME] data to support this aim

- *Examples of ways [CRN NAME] may assist with study aims:*
 - *Feasibility evaluation based on currently available [CRN NAME] data*
 - *[CRN NAME] Common Data Model (CDM) data request*
 - *Prep to research assessment*
 - *New data collection*
 - *Participant/Patient recruitment/enrollment*
 - *Patient expertise/engagement*
 - *Investigator expertise*

Patient and Community Engagement Plan

INSTRUCTIONS FOR RESEARCHERS:

[CRN NAME] is committed to engaging patients, community members, and other key partners throughout the research lifecycle. By engaging patients and other communities, scientists are better able to conduct equitable research and address the needs of the communities; thus, increasing their scientific rigor and merit.

*Describe how you plan to engage patients, community groups, and other partners to enhance your research. Please note this does **not** include surveying or interviewing patients (e.g., focus groups or qualitative interviews) for research purposes.*

If you do not currently have a patient/community engagement plan in place, please state during your presentation willingness to incorporate a plan and/or steps you are actively taking to incorporate a plan moving forward (example: meeting with [CRN NAME] engagement lead to discuss)

Questions/Discussion Items

INSTRUCTIONS FOR RESEARCHERS:

Use this space to include any questions or items you would like to discuss or otherwise address with the review group during your review.
