<https://www.rush.edu/>

PCORnet® Network Partner in PaTH since 2014

The purpose of this Site Profile is to provide an overview of the basic research processes at Rush University Medical Center. This profile can help you understand: the types of patients within the electronic medical records; current PCORnet® Study participation; patient recruitment methods and institutional procedures related to Institutional Review Board and contracting; and data linkages.

### Table 1. Characteristics of the patient population between January 1 – December 31, 2024

The characteristics of the patient population presented in this table are based on data from the health system’s electronic health records mapped to the PCORnet® Common Data Model as of September 2025 and do not reflect any public-facing or official characteristics reported by the health system or its partners. This data can be used to help inform researchers of the types of patients, care settings, and location data that are available for research.

**Participant Recruitment Capabilities**

*Mechanisms*

- Patient portal       Email       Post mail       Schedule-driven clinic intercept

*Outreach*

- System-wide outreach permitted       Clinic-specific outreach (physician approval required)

*Institutional Review Board (IRB) Policy*

- Recruitment messaging with “opt-out” language permitted

*Primary Patient Groups*

- Adult       Pediatric       Safety net

**Institutional Procedures**

***Institutional Review Board (IRB) Arrangements***

- May rely on single/central IRB for federally mandated studies only
- May rely on single/central IRB for non-federally mandated studies
- May accept commercial IRB review

***Order of Activation***

- IRB approval required before contract execution
- Contract execution required before IRB approval
- IRB and contract can be executed in parallel

***Administrative Efficiencies***

- Will accept PCORnet<sup>®</sup> Master Clinical Research Agreement without redlines for PCORI-funded studies
- Has signed the PCORnet<sup>®</sup> Master Data Sharing Agreement
- Has contracted directly with Industry funders

**Linkage with Other Data Sources**

***Health Plan Claims***

***Name(s) of Plan(s)***

- In same or adjacent data mart with common ID
- Established linkage infrastructure and regulatory

***Other (non-EHR) Data***

***Name(s) of Data Source(s)***

- Linked in DataMart\*
- Established linkage infrastructure and regulatory

\*DataMart refers to a specific data source consisting of data collected, captured or otherwise obtained by the health system. Each site's PCORnet DataMart houses data standardized to the PCORnet<sup>®</sup> Common Data Model.

Rush University Medical Center is a Network Partner in PCORnet<sup>®</sup> which has been developed with funding from the Patient-Centered Outcomes Research Institute<sup>®</sup> (PCORI<sup>®</sup>). Rush University Medical Center's participation in PCORnet is funded through a PCORI Award (RI-PITT-01-PS8). PCORnet<sup>®</sup> is intended to improve the nation's capacity to efficiently conduct patient-centered health research, particularly comparative clinical effectiveness research (CER), by providing a large, highly representative network of health data, research expertise, and patient insights.
