<https://www.tmh.org/>

PCORnet® Network Partner in OneFlorida+ since 2018

The purpose of this Site Profile is to provide an overview of the basic research processes at Tallahassee Memorial Healthcare and Capital Health Plan. This profile can help you understand: the types of patients within the electronic medical records; current PCORnet® Study participation; patient recruitment methods and institutional procedures related to Institutional Review Board and contracting; and data linkages.

### Table 1. Characteristics of the patient population between January 1 – December 31, 2024

The characteristics of the patient population presented in this table are based on data from the health system’s electronic health records mapped to the PCORnet® Common Data Model as of September 2025 and do not reflect any public-facing or official characteristics reported by the health system or its partners. This data can be used to help inform researchers of the types of patients, care settings, and location data that are available for research.

\*DataMart refers to a specific data source consisting of data collected, captured or otherwise obtained by the health system. Each site's PCORnet DataMart houses data standardized to the PCORnet<sup>®</sup> Common Data Model.

Tallahassee Memorial Healthcare and Capital Health Plan is a Network Partner in PCORnet<sup>®</sup> which has been developed with funding from the Patient-Centered Outcomes Research Institute<sup>®</sup> (PCORI<sup>®</sup>). Tallahassee Memorial Healthcare and Capital Health Plan's participation in PCORnet is funded through a PCORI Award (RI-FLORIDA-01-PS8). PCORnet<sup>®</sup> is intended to improve the nation's capacity to efficiently conduct patient-centered health research, particularly comparative clinical effectiveness research (CER), by providing a large, highly representative network of health data, research expertise, and patient insights.
