

## The University of Washington

<https://www.washington.edu/>

PCORnet® Network Partner in ADVANCE since 2023

The purpose of this Site Profile is to provide an overview of the basic research processes at The University of Washington. This profile can help you understand: the types of patients within the electronic medical records; current PCORnet® Study participation; patient recruitment methods and institutional procedures related to Institutional Review Board and contracting; and data linkages.

### Table 1. Characteristics of the patient population between January 1 – December 31, 2024

The characteristics of the patient population presented in this table are based on data from the health system’s electronic health records mapped to the PCORnet® Common Data Model as of September 2025 and do not reflect any public-facing or official characteristics reported by the health system or its partners. This data can be used to help inform researchers of the types of patients, care settings, and location data that are available for research.

\*For state data, the site profile report will only list states with ≥ 10% of the patients.

**PCORnet® Study Leadership (Studies listed below where The University of Washington is the lead site)**

**Consented Studies (interventional trials & studies with patient-reported data collection)**

None

**Observational Studies**

None

**Data Science**

None

**Engagement (for example, PCORI-funded Science of Engagement projects)**

None

**PCORnet® Study Participation (Studies listed below where The University of Washington is participating)**

**Consented Studies (interventional trials & studies with patient-reported data collection)**

- Tube Size Randomized Trial during Emergency Tracheal Intubation

**Observational Studies**

None

**Data Science**

None

**Engagement (for example, PCORI-funded Science of Engagement projects)**

None

**Participant Recruitment Capabilities**

**Mechanisms**

Patient portal       Email       Post mail       Schedule-driven clinic intercept

**Outreach †**

System-wide outreach permitted       Clinic-specific outreach (physician approval required)

† At present IRB does not allow blanket outreach. It may be approved on a project by project basis.

**Institutional Review Board (IRB) Policy**

Recruitment messaging with “opt-out” language permitted

**Primary Patient Groups**

Adult       Pediatric       Safety net

**Institutional Procedures**

**Institutional Review Board (IRB) Arrangements**

May rely on single/central IRB for federally mandated studies only

May rely on single/central IRB for non-federally mandated studies

May accept commercial IRB review

**Order of Activation**

IRB approval required before contract execution

Contract execution required before IRB approval

IRB and contract can be executed in parallel

---

**Administrative Efficiencies**

- Will accept PCORnet® Master Clinical Research Agreement without redlines for PCORI-funded studies
  - Has signed the PCORnet® Master Data Sharing Agreement
  - Has contracted directly with Industry funders
- 

**Linkage with Other Data Sources****Health Plan Claims****Name(s) of Plan(s)**

- In same or adjacent data mart with common ID
  - Established linkage infrastructure and regulatory
- 

**Other (non-EHR) Data****Name(s) of Data Source(s)**

- Linked in DataMart\*
  - Established linkage infrastructure and regulatory
- 

\*DataMart refers to a specific data source consisting of data collected, captured or otherwise obtained by the health system. Each site's PCORnet DataMart houses data standardized to the PCORnet® Common Data Model.

The University of Washington is a Network Partner in PCORnet® which has been developed with funding from the Patient-Centered Outcomes Research Institute® (PCORI®). The University of Washington's participation in PCORnet is funded through a PCORI Award (RI-OCHIN-01-PS8). PCORnet® is intended to improve the nation's capacity to efficiently conduct patient-centered health research, particularly comparative clinical effectiveness research (CER), by providing a large, highly representative network of health data, research expertise, and patient insights.
