

Tulane Medical Center

<https://medicine.tulane.edu/our-hospitals>

PCORnet® Network Partner in REACHnet since 2013

The purpose of this Site Profile is to provide an overview of the basic research processes at Tulane Medical Center. This profile can help you understand: the types of patients within the electronic medical records; current PCORnet® Study participation; patient recruitment methods and institutional procedures related to Institutional Review Board and contracting; and data linkages.

Table 1. Characteristics of the patient population between January 1 – December 31, 2024

The characteristics of the patient population presented in this table are based on data from the health system's electronic health records mapped to the PCORnet® Common Data Model as of September 2025 and do not reflect any public-facing or official characteristics reported by the health system or its partners. This data can be used to help inform researchers of the types of patients, care settings, and location data that are available for research.

Unique Patient Records	100,001-500,000 [presented as range]
AGE IN YEARS	%
Children 0-9	9 %
Children 10-19	9 %
Adults 20-34	16 %
Adults 35-54	26 %
Adults 55-64	16 %
Adults 65-74	15 %
Adults 75+	9 %
SEX	
Female	57 %
Male	43 %
Unknown	<1 %
Missing	<1 %
RACE	
White	46%
Black or African American	37%
Asian	2%
Multiple race	<1%
American Indian or Alaska Native	<1%
Native Hawaiian or Other Pacific Islander	<1%
Unknown	11%
Missing	2%
HISPANIC	
No	79%
Yes	9%
Unknown	6%
Missing	6%
CARE SETTING – <i>patients may have more than one encounter type</i>	
Ambulatory Visit	89%
Emergency Department	8%
Telehealth	5%
Inpatient hospital stay	7%
Emergency to inpatient	5%
Observation stay	1%
Non-acute institutional stay	0%
AREA DEPRIVATION INDEX	
Quartile 1 (Highest Socioeconomic Status)	15 %
Quartile 2	23 %
Quartile 3	29 %
Quartile 4 (Lowest Socioeconomic Status)	31 %
Missing	2 %

RURAL-URBAN RESIDENCE

Metropolitan/Urban area	95 %
Micropolitan/Large rural area	2 %
Small town	<1 %
Isolated rural area	<1 %
Missing	1 %

US STATE*

Louisiana	93 %
-----------	------

*For state data, the site profile report will only list states with $\geq 10\%$ of the patients.

PCORnet[®] Study Leadership (Studies listed below where Tulane Medical Center is the lead site)

Consented Studies (interventional trials & studies with patient-reported data collection)

None

Observational Studies

None

Data Science

None

Engagement (for example, PCORI-funded Science of Engagement projects)

None

PCORnet[®] Study Participation (Studies listed below where Tulane Medical Center is participating)

Consented Studies (interventional trials & studies with patient-reported data collection)

- Aspirin Dosing: A Patient-Centric Trial Assessing Benefits and Long-term (ADAPTABLE)

Observational Studies

- Comparing the Benefits and Harms of Three Types of Weight Loss Surgery -- The PCORnet[®] Bariatric Study
- Empagliflozin Diabetic Kidney Disease (Empa DKD)
- Equity in Treatment for Asthma Between Latinos and Whites
- Understanding How Antibiotic Use Affects Childhood Obesity and Growth
- Using PCORnet to Compare Blood Pressure Control Strategies

Data Science

None

Engagement (for example, PCORI-funded Science of Engagement projects)

None

Participant Recruitment Capabilities

Mechanisms

- ☒ Patient portal ☒ Email ☒ Post mail ☒ Schedule-driven clinic intercept

Outreach

- ☒ System-wide outreach permitted ☐ Clinic-specific outreach (physician approval required)

Institutional Review Board (IRB) Policy

- ☒ Recruitment messaging with "opt-out" language permitted

Primary Patient Groups

- ☒ Adult ☒ Pediatric ☐ Safety net

Institutional Procedures

Institutional Review Board (IRB) Arrangements

- ☐ May rely on single/central IRB for federally mandated studies only
 - ☒ May rely on single/central IRB for non-federally mandated studies
 - ☒ May accept commercial IRB review
-

Order of Activation

- ☐ IRB approval required before contract execution
 - ☐ Contract execution required before IRB approval
 - ☒ IRB and contract can be executed in parallel
-

Administrative Efficiencies

- ☒ Will accept PCORnet[®] Master Clinical Research Agreement without redlines for PCORI-funded studies
 - ☒ Has signed the PCORnet[®] Master Data Sharing Agreement
 - ☒ Has contracted directly with Industry funders
-

Linkage with Other Data Sources

Health Plan Claims

- ☐ In same or adjacent data mart with common ID
- ☒ Established linkage infrastructure and regulatory

Name(s) of Plan(s)

CVS, Humana, Louisiana Blue

Other (non-EHR) Data

- ☐ Linked in DataMart*
- ☒ Established linkage infrastructure and regulatory

Name(s) of Data Source(s)

Louisiana Tumor Registry

*DataMart refers to a specific data source consisting of data collected, captured or otherwise obtained by the health system. Each site's PCORnet DataMart houses data standardized to the PCORnet[®] Common Data Model.

Tulane Medical Center is a Network Partner in PCORnet[®] which has been developed with funding from the Patient-Centered Outcomes Research Institute[®] (PCORI[®]). Tulane Medical Center's participation in PCORnet is funded through a PCORI Award (RI-LPHI-01-PS8). PCORnet[®] is intended to improve the nation's capacity to efficiently conduct patient-centered health research, particularly comparative clinical effectiveness research (CER), by providing a large, highly representative network of health data, research expertise, and patient insights.
